

Majestic Cast Iron Gas Stoves
COMFORT MEETS CONVENIENCE

ADD THE TRADITIONAL LOOK AND WARMTH OF A STOVE TO ANY ROOM WITH A GAS STOVE FROM MAJESTIC. These vent free and direct vent stoves combine the heritage and appeal of fine craftsmanship with the convenience of contemporary technology to ensure optimal functionality and timeless beauty.

DIRECT VENT STOVES

Designed with the latest technology, this stove proves to be a clean-burning, efficient heat source and a complement to any décor. Classic styling combined with the warmth and ambiance of a glowing fire make these direct vent gas stoves the perfect addition to your space. With the benefit of remote operation and the power of up to 28,000 BTUs, the Concorde direct vent stove provides both comfort and convenience.

CSDV30 STANDARD FEATURES

- High quality castings
- Large viewing area
 - 230 square inches
- Available in natural or propane gas models
- Robust lively flames, glowing logs and large ember bed provide both ambiance and warmth to any setting
- Reliable millivolt system operates even during power outages
- Operator friendly deluxe control panel
- Battery operated pilot ignition system makes startup a snap
- Variable flame control
- Options include a heat activated variable speed blower, remote controls or wall thermostat
- Thermal efficiency up to 80%

CSDV30 in Enamel Brown shown on the cover

CSDV30 Direct Vent Cast Stove
with Screen Barrier in Graphite

ALL OF OUR MAJESTIC GAS STOVES OFFER THESE GREAT FEATURES INCLUDING

CAST IRON CONSTRUCTION.

Nothing endures like cast iron. Used for years, cast iron ensures the most durable, beautiful stove available today.

OPTIONS TO SUIT YOUR LIFE.

Available in two classic colors and two venting options, you can add the warmth of fire to your home in just a few hours. Whether you use natural or propane gas, the quality and efficiency of the Concorde stove is yours to enjoy.

CONVENIENCE.

Available in millivolt control with remote operation, you can operate the unit from the comfort of your couch. Winter power outages are no longer a concern—Concorde gas stoves will heat your home, even when the electricity goes out.

SAFETY FIRST.

The direct vent model has a certified safety barrier available to cover the hot glass surface. The vent free model comes standard with a fixed safety screen installed.

CERTIFIED
SAFETY BARRIER

VENT FREE STOVES

Designed by the leader in vent free technology, the Concorde vent free gas stove combines all the features and style of the direct vent version, but with the ease of installation only available in a vent free design. Suitable for nearly any space in the home, the Concorde vent free stove requires only a gas line hook up to operate. Crafted in traditional cast iron, these models offer up to 32,000 BTUs of space warming heat.
