

EXPERIENCE THE POWER OF ULTIMATE CONVENIENCE

Ambient Technologies® Remote Systems
bring fireplace controls to your fingertips.

Ambient 
TECHNOLOGIES®

ENJOY SUPERIOR CONVENIENCE AND CONTROL

AMBIENT TECHNOLOGIES OFFERS A VARIETY OF REMOTES AND ACCESSORIES DESIGNED TO BRING THE CONVENIENCE OF FIREPLACE CONTROLS TO YOUR FINGERTIPS. THAT WAY, YOU CAN GET MORE OUT OF YOUR FIREPLACE WITH ADVANCED TECHNOLOGY AND EASE OF USE.

DESIGNED FOR YOUR COMFORT >

The ergonomic, slim design makes our remotes easy to use. Combined with the soft-touch finish, Ambient Technologies remotes enhance the comfort, luxury and convenience of any gas fireplace. Plus, our line of touch screen remote controls offers you the latest control technology in the palm of your hand.

DEPENDABLE PERFORMANCE >

We've designed our remotes to be consistent and dependable. To ensure product reliability, each remote features a radio frequency operating system. Radio frequency allows for multiple security codes — which virtually eliminates interference from other home appliances such as televisions, DVR players and other devices. You can confidently control your fireplace from up to 30 feet away without interference from objects between you and the receiver.

QUALITY ASSURANCE >

Innovative technology, advanced engineering and a 20-step quality control program produce the finest remote controls available in the industry. Our remotes and accessories have been engineered for compatibility with ALL brands of gas fireplaces, logs, inserts and stoves in today's market and are fully warranted for five years.

AT YOUR SERVICE >

Our pledge for comfort and convenience extends beyond the showroom. Top-notch technical support is automatically included as part of the package. Our toll-free number is staffed by knowledgeable technicians, ready to assist before, during and after installation so you can be totally comfortable when choosing Ambient Technologies.
