

Accentra Pellet Stove

HARMAN[®]
BUILT TO A STANDARD, NOT A PRICE

Let the warmth win you over. The Accentra will captivate you with the convenience of pellet's unwavering even heat. Seamlessly incorporate the Accentra pellet stove into your life with its elegant cast iron construction, clean lines and minimal maintenance.

Sealed hopper holds up to 50 pounds of pellets

Tinted glass hopper lid

Variable-speed blower

Nautical medallion

Large, clean viewing area

Flame-reactive mirrored glass

Dual-point latching handle

Large, easy-access ash pan

Cover: Accentra shown in porcelain majolica brown with Harman Protect Cast Iron Hearth Pad
Above: Accentra shown in matte black

Features

- Clean, elegant cast iron styling
- View fuel levels easily with tinted hopper lid
- Less loading with 50lb hopper capacity
- Less maintenance with large ash pan
- Elegant flame-reactive mirrored glass
- Installation made easy with direct vent

Options

- Matte black or porcelain majolica brown Finish
- Leg kit (matte black only)
- Harman Protect Cast Iron Hearth Pad (matte black only)
- Direct vent wall pass-through
- Outside air kit

Tinted glass hopper lid

Leg kit (available in matte black only)

Key Technologies More than 35 years of engineering excellence and heating performance, distilled into these exclusive technologies.

ESP Temperature Control Harman pellet stoves utilize an advanced Exhaust Sensing Probe (ESP) system to deliver precise heating control. ESP constantly monitors and adjusts heat output to maintain set room temperatures within one degree.

PelletPro™ System This patented system makes it possible to burn any grade of pellet fuel with maximum heat and efficiency. A bottom-up feed system burns each pellet completely and allows for 24-hour heating.

ESP Temperature Control helps maintain a consistent room temperature.

Accentra Specifications and Clearances

Specifications

BTU/Hr Input ²	9,700-38,800
Efficiency ³	82%
Emissions.....	0.62g/hr
Heating Capacity ⁴	900-2,400 sq ft
Hopper Capacity.....	50lbs
Fuel Type.....	Pellet
Feed Rate.....	1.1-4.3lb/hr
Venting Size.....	3"

Clearance to Combustibles

Minimum Floor Protection

Standard.....	24-1/16" x 28-5/8"
Corner.....	28-5/8" x 24-1/16"

A Standard of Excellence

In 1979, Dane Harman used his welding skills and design talent to build his first wood stove, setting the stage for a journey full of entrepreneurial energy and innovation. Built to a Standard and Not a Price has remained an unwavering promise since that first model was constructed, and is exemplified today through Harman's multiple patents and industry awards. Harman heating solutions are built to withstand the test of time with reliable warmth and aesthetic elegance, staying true to Dane's dedication to optimal performance and engineering excellence.

LIMITED LIFETIME WARRANTY⁵

The strongest in the industry, Harman provides a limited lifetime warranty on most important aspects: firebox and heat exchanger.

¹Trim kit and tile accents required to complete the stove. ²EPA tested input. ³Weighted Average LHV (Low Heating Value) Efficiency. ⁴See your local authorized Harman dealer for help in determining the product that best suits your heating needs based on climate and home efficiency. ⁵For full warranty details, visit www.harmanstoves.com.

Actual product appearance, including flame, may differ from image. Tested by OMNI-Test Laboratories/ASTM E 1509-04, ULC/ORD-C1482-M1990, ULC-S627-00, OAR 814-23-900 through 814-23-909, Mobile Home Approved. Product specifications and pricing subject to change without notice. The images and descriptions in this brochure are provided to assist you in product selection only. Fuel density and pellet shape may affect hopper capacity. Btu's may vary depending on type of fuel used. Refer to installation manual for complete clearance requirements and specifications. Fireplace, stove and insert surfaces get extremely HOT and can cause severe burns if touched. Keep a safe distance away. To learn more visit www.harmanstoves.com/fireplacesafety
