The comforting, balancing, room-enhancing experience of a traditional fireplace, in any room of the house, at any time of the year—that's what an electric fireplace is all about. When gas or wood are not an option, a Heat & Glo electric fireplace insert is a smart choice.

They're easy—no venting, no gas line, no chopping, no construction. Just take it home, plug it in and enjoy.

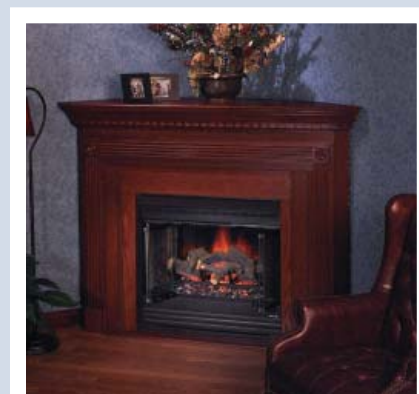

They're realistic—technologically advanced flame design has a brilliant ember bed plus a substantial grate and log set.

They're versatile—enjoy two different levels of flame intensity, with or without thermostatically controlled heat.

And they're flexible—create one to custom match your home's interior or choose from our collection of specifically designed, ready-to-go mantels, surrounds and fronts.

Crestfire 750E-B/550E-B

- Our largest electric fireplace, Crestfire 750E-B, is a generous, authentic 36"-wide fireplace.
- Our 31"-wide electric fireplace, Crestfire 550E-B, fits more modest-sized rooms.
- Offer a 240-volt option (Crestfire 750EV-B and 550EV-B) for hardwire installations, doubling heat output.

Crestfire 260E-B/230E-B

- Our 26"-wide and 9 1/4"-deep electric fireplace, Crestfire 260E-B slips snugly into most tight spots.
- Our smallest, go-anywhere electric fireplace, Crestfire 230E-B is only 23"-wide and 9 1/4"-deep.
- Offers a choice of rectangular or arched front with polished brass or brushed nickel trim.
- Can be installed as an insert into existing masonry fireplaces using an insert front.

Options, options & more options
