

ALL OF THE AMBIANCE AND WARMTH WITHOUT THE MESS AND HASSLE.

Meet Heat & Glo™ Gas Fireplace Inserts.

A gas fireplace insert
can bring your heating
efficiency from

15% to 70%

Convert a drafty, wood-burning fireplace into an efficient, beautiful focal point by installing a Heat & Glo gas fireplace insert.

Compare a wood-burning fireplace with one of our gas inserts, and it's easy to see why so many people make the switch to a safe, real-flame gas fireplace.

Wood-Burning	Gas Insert
Hauling/stacking wood	Real fire with easy remote control on/off
Outdated style	Updated style and design
Fire risk from open flame	Protective glass and screen
Dirty soot and ashes	Clean and mess-free
Drafty and inefficient	Air tight - no cold air draft
High maintenance	Hassle-free enjoyment

HOW CAN A GAS INSERT REPLACE MY WOOD-BURNING FIREPLACE?

A Heat & Glo gas fireplace insert can transform your existing traditional wood fireplace into a beautiful and efficient heat source, without a major renovation. You have prime real estate sitting right in front of you, put it to good use with the best-in-class styling and performance of a Heat & Glo gas fireplace insert.

THE REPLACEMENT PROCESS

Take measurements and photos of the inside of your fireplace, or better yet, call an authorized dealer and let them do it for you.

Visit one of our authorized dealers to get a hands-on look. Their professionally trained staff will help you choose the right gas insert to match your home's style.

Sit back while a professional technician hooks up the gas line and installs your fireplace insert, typically in less than a day*.

Enjoy warmth and comfort at the push of a button with your beautiful new gas fireplace!

*May take longer if hearth is resurfaced with new stone/brick
