WOOD STOVES

# WOOD STOVES

## Innovative Technology

## Design Excellence

Heat & Glo® wood stoves incorporate bold fires into clean, stylish designs. Advanced technology helps achieve high-efficiency performance and captivating flames. And these sleek stoves can go places where others cannot; slender footprints provide more placement possibilities.

Create a functional design statement and custom finish. Experience how technology and design combine in Heat & Glo wood stoves.

Cover: Radius 300 shown with optional cabinet door.

## WOOD STOVES

### CURVE

This sleek wood stove creates captivating fires and an elegant design statement. Advanced clean burn technology provides eco-friendly heating, while a slender profile offers versatile placement options. Personalize your Curve with a full glass viewing door, and either a stainless steel or black handle.

Curve 300G shown above with optional black handle.

### RADIUS

Create warming, contemporary ambiance. The Radius provides artistic flames behind a modern Scandinavian design. Innovative technology helps the sophisticated wood stove achieve 84% efficiency—delivering more heat with less wood. Finish your look with stainless steel accents or panoramic viewing.

Radius 100 shown above.

### CURVE MODELS

Four Curve models are available. All offer the same, efficient burn performance and smooth styling.

- Curve 300S offers dual side viewing windows and a steel door
- Curve 300G offers dual side viewing windows and a glass door
- Curve 100S has a full front viewing panel with a steel door
- Curve 100G has a full front viewing panel with a glass door
