HEAT & GLO

MODERN COLLECTION

The beauty of form.

The brilliance of function.

The Heat & Glo Modern Collection is a brilliant blend of contemporary design and superior technology. It's a powerful combination—and a tribute to the innovation and inspiration behind the Heat & Glo brand.

Each fireplace in this elite selection offers an integrated whole hearth system to match any home or office. Stunning style and a convenient gas platform provide the best of both worlds, evident in every model.

Deliver a bold design statement—through a functional focal point. Let the Modern Collection provide the power of panache.

SOLARIS

A piece of the setting sun

The Solaris is a fusion of stunning design and innovative performance. This two-sided fireplace features a continuous, levitating fire—through a mirrored 6-inch firebox with an extremely slim footprint.

The Solaris is available in two models.

- The Solaris 36-ST is a see-through fireplace with a levitating flame appearing through a transparent Razor™ burner
- The Solaris 36-MR is a two-sided fireplace with an infinity flame and vaulted LED lighting reaching back into a 6-foot deep illusion of intense fire

Above: Solaris 36-ST version shown with black base, ebony top and bottom panels and gloss white side panels.

MODERN COLLECTION

ELEVATED SOPHISTICATION

The Solaris is ideal for residential and commercial applications. And, the Solaris can go where other fireplaces cannot; any 2" x 6" studded wall is fair game.

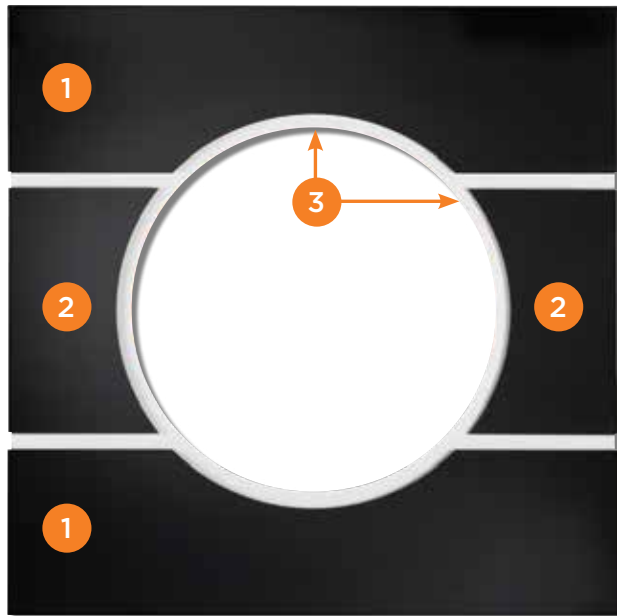

Solaris 36-ST shown with black base, ebony top and bottom panels and gloss white side panels.

SAVOR TWO SIDES

The 33" diameter of the Solaris is easily incorporated into any room. One side is installed with a clean ring of trim. The other side can be outfitted in a variety of styles.

Solaris 36-MR shown with standard trim.

FINISHING OPTIONS

One side of each Solaris is finished with a simple, black trim ring. Customize the other side by mixing and matching panel colors to your style, providing up to 18 color combinations for a truly custom look.

Select from four stylish colors for:

- 1) Top & Bottom panel set
- 2) Side panels set
- 3) Base panel set (black or gloss white only)

RED SERIES

Rectangular European Design

The RED Series has elevated the level of style and function in linear fireplaces. These unique models create a warming atmosphere through innovative, non-traditional shapes and materials. A vast variety of stone and glass media options, accent lighting and refractory liners combine to create an exclusive look in any of the three RED Series fireplaces.

Above: RED60 shown with LED lights, cobalt blue media, absolute black granite refractory, and standard safety mesh frame.

MODERN COLLECTION

ALWAYS IN STYLE

Achieve a custom look with the RED Series. Combine media options and finishing materials for a perfect blend of contemporary style and long, captivating flames.

RED 40 shown with LED lights, scarlet media, standard safety mesh and absolute black granite refractory and surround.

OUR FLAME, YOUR FIRE

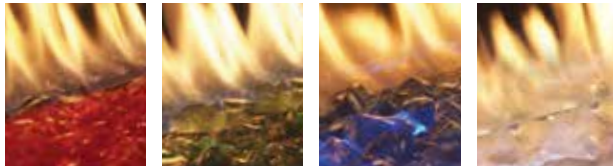

Match your flames with your finish. Drive your décor with a statement of flames reflecting your own style.

RED 40-ST shown with onyx media, porcelain refractory, standard safety mesh and absolute black granite surround.

MEDIA OPTIONS

The area around your ribbon fire has many options.

MEDIA OPTIONS WITH LED ILLUMINATION

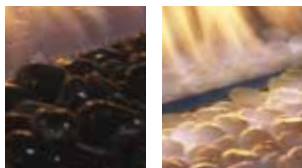

Scarlet Emerald Cobalt Crystal

Using the Crystal glass media you can choose up to 7 different colors of LED illumination

MEDIA OPTIONS WITHOUT LED ILLUMINATION

COSMO

A modern marvel

The Cosmo is available as a fireplace and as a fireplace insert. Both models deliver impressive performance and unmatched looks. Upgrade your favorite space with the stunning style of the Cosmo.

Above: Cosmo 42 shown with tonic front in fog with black glass media.

MODERN COLLECTION

BOLD STATEMENT

The Cosmo is a striking example of true contemporary design. Gorgeous glass and stone media or a detailed log set delivers a strong style statement in any home.

Cosmo 42 shown with log set and tonic front in new bronze.

VIVID FLAMES

The Cosmo-I30 and Cosmo-I35 inserts feature a reflective glass refractory liner. This spreads the flames up throughout the firebox and intensifies the presence of fire.

LUX

Modern Art, On Fire

The LUX delivers custom looks—without custom costs and installation hassles. Colorful flames rise through sculpted stainless steel while a reflective black glass interior multiplies the fire and radiates the flames. It's an innovative blend of technology, design and safety that creates modern art, on fire.

Above: LUX 42 shown with modern front in gray and ceramic fiber stones.

MODERN COLLECTION

LUX

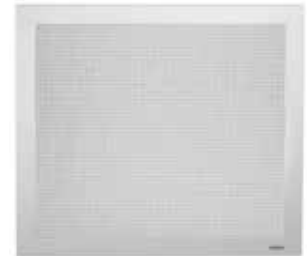

The LUX delivers a bold design statement in any room. Powerful, high-efficiency heat production is disguised by a clean, artistic appearance. A variety of media and front options help create your own unique contemporary style.

MODERN COLLECTION

EVEREST

The Everest provides a fresh, welcomed look in any room. It's handsome, upright design is highlighted by impressive flames, a textured interior and powerful heating performance.

Everest shown with atlas cast stone surround.

ATLAS SURROUND

This idyllic surround bolsters the appearance of the Everest. It features concrete construction and a beveled glass shelf with brushed aluminum stands.

Note: The Everest must be elevated a minimum of 5.75" from the floor when using the Atlas Surround to properly fit the surround.

PALOMA

The smart, sophisticated Paloma artfully blends European styling with innovative engineering. Its slender proportions perfectly suit more intimate spaces. Define your favorite room with distinctive style, powerful heating and a graceful design.

Paloma shown with gray outer glass and hearth pad.

FRONT PANEL AND HEARTH PAD FINISHING OPTIONS

Standard curved outer glass front and optional hearth pad available in bronze or gray tint.

Dimensions above are in inches. Reference dimensions only. We recommend measuring individual units at installation. NOTE: Combustible material should not be installed over the face. Make sure you do NOT cover the decorative door opening. Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not a true representation of the fireplace and/or flames.

U.S. EFFICIENCIES

Steady State - Since most homeowners use their fireplaces for an extended time while they are in the room, Steady State measures how efficiently your fireplace converts fuel to heat once it is warmed up and running in a "steady state".

AFUE - AFUE rating is more typically used with appliances, like your furnace, that continually cycle on and off to maintain a constant temperature.

INTELLIFIRE PLUS IGNITION SYSTEM

The IntelliFire™ Plus Ignition System (IPI Plus) is an advanced intermittent pilot ignition system with memory settings and a programmable wireless control. IPI Plus constantly monitors ignition, ensures safe functioning and conserves up to \$10/month in energy costs. To learn more about IntelliFire Technology, scan the code to the right with your smartphone, or visit heatnglo.com.

DIRECT VENT TECHNOLOGY

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality. To learn more about IntelliFire Technology, scan the code to the right with your smartphone, or visit heatnglo.com.
