Product Dimensions

Top

Front

Right Side

Framing

MODEL	A	B ¹	C ²	D ³
Constitution	42-1/2" (1080 mm)	24" (610 mm)	56-3/4" (1441 mm)	12" (305 mm)

Note: Header **MUST NOT** be notched. The fireplace header cannot be positioned until after the fireplace assembly is in place.

- 1 If interior of chase will be drywalled, add the thickness to this measurement
- 2 Adjust header height for raised floor under fireplace
- 3 Extra space needed for outside air connection. If outside air duct has no bend, this dimension may be reduced as long as minimum clearances are met.

^{*}Tested to EPA standards, the Northstar fireplace meets the strictest environmental standards for wood-burning fireplaces and can be used in areas where conventional wood-burning appliances are restricted or banned.

^{**}If interior of chase will be drywalled, add the thickness to this measurement.

Available from

Limited Lifetime Warranty

The strongest in the industry, Heatilator provides a limited lifetime warranty on wood-burning products of the most important aspects: firebox and heat exchanger.

The information provided in this literature is for planning purposes only and subject to change. Please consult the installation instructions for actual installation. Actual product appearance may differ from product images. Fireplace glass and other surfaces get extremely HOT and can cause severe burns if touched. Keep a safe distance away.
