

A close-up photograph of a Heatilator fireplace. The fire is burning brightly behind a dark metal mesh screen. In the foreground, a silver metal plate is mounted on the fireplace, featuring the Heatilator logo and tagline. The background is dark, making the fire and the metallic elements stand out.

heatilator fireplace
selection guide

A Heritage of Success

The essence of every Heatilator® fireplace is exceptional value. It's been that way since the brand's first fireplace in 1927. An extensive line of hearth products deliver long-lasting dependability, easy operation and appeal to different homeowners in a range of affordable styles.

According to the 2011 *Builder* magazine *Brand Use Study*, Heatilator remains the most recognized, preferred and installed fireplace brand by building professionals—a true sign of the value and trust in the Heatilator name.

Heirloom shown with firescreen front in black, castlewood refractory and custom surround.

Fireplace

selection guide

Direct Vent Technology

Direct Vent gas fireplaces and inserts remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

To learn more about Direct Vent technology, scan the code with your smartphone, or visit heatilator.com.

IntelliFire™ Ignition System

The IntelliFire™ Ignition System (IPI) is an advanced intermittent pilot ignition system. IPI constantly monitors ignition, ensures safe functioning and conserves up to \$10/month in energy costs.

To learn more about IntelliFire technology, scan the code with your smartphone, or visit heatilator.com.

IntelliFire™ Plus (IPI Plus) takes this technology to the next level with more safety and memory settings and a programmable wireless remote control.

Eco-Friendly Performance

Heatilator fireplaces and inserts deliver maximum efficiency and eco-friendly performance. Many Heatilator products are also recognized by national green building programs. These programs are outlined below:

Type of Hearth	National Green Building Standards ICC 700-2008	LEED® for Homes	Energy Star® Indoor Air Package
Gas fireplaces, stoves and inserts – Direct Vent	7 points	1 point - Direct Vent, 2 points - Direct Vent + electronic ignition	Qualify
Wood fireplaces, stoves and inserts - EPA-certified	6 points	1 point - EPA-cert., 2 points - EPA-cert. + back draft potential test	Qualify
Pellet fireplaces, stoves, inserts & furnaces - EPA-certified	6 points	1 point - EPA-cert., 2 points - EPA-cert. + direct venting	Qualify
Electric fireplaces and stoves	7 points	2 points	Qualify

Energy Savings

Heat-Zone® technology is an advanced heat management system available with select Heatilator products. Heat-Zone systems help homeowners conserve energy by sending heat into the most used areas of the home.

Gas

single-side fireplaces

Heirloom shown with firescreen cabinet front in black, herringbone refractory and custom surround.

Heirloom

The Heirloom offers authentic masonry looks without the cost of a site-built masonry fireplace. The largest 36, 42 and 50-inch viewing areas in their class showcase intense fires and textured brick interiors. High-efficiency, AFUE-rated performance functions with the safety of Direct Vent technology and makes the Heirloom a welcomed addition in any home.

Available in viewing area widths of: 36", 42", 50"

Ignition System	Venting Type	Fan	Refractory	Control
