

Wood-Burning Fireplaces

BEAUTY BY DESIGN

# Pioneer III

## EPA Wood-Burning Fireplace

This EPA-approved wood-burning fireplace combines efficiency with rolling flames seen through the cast-iron framed glass door. Smart Burn Technology makes it easy to control the fire, enabling you to push a button, and walk away. This whole-house heater is available with rectangular and arched doors with three front choices.

SEE IT BURN

Pioneer III shown with Mission Arch Front.

### Pioneer III Quick Look

- Smart Burn Technology – controls the air coming into your fire
- Heats 1,200-3,000 sq.ft. with up to 85,175 BTUs based on climate and home efficiency
- 24" logs fit a 4.1 cu. ft. firebox for an 18 hour burn
- 2 door styles with 3 front options
- 400-CFM fan system pushes heat further and faster into your room
- Certified to the EPA 2020 emissions standard

### Pioneer III Front Options (required to complete)

Forged Arch front

Mission Arch front

Mission Rectangular front

# Pioneer II

## EPA Wood-Burning Fireplace

Enjoy hassle-free performance that's ideal for everyday use. The efficiency of the EPA- approved Pioneer II supplies long burn times with nonstop rolling flames. Never has it been easier to set the mood for relaxing or just keeping your home or cabin toasty warm.

### Pioneer II Quick Look

- 22" recommended log length and 2.7 cu. ft. firebox capacity
- Up to 8 hours of burn time from each load of wood
- Available with rectangular or arch front
- Certified to the EPA 2020 emissions standards
- Heats 1,000-2,600 sq. ft. with 81,000 BTUs, based on climate and home efficiency
- High performance dual fans with adjustable speed controls distribute a constant flow of heat

# WarmMajic II

## EPA Wood-Burning Fireplace

Enhance your home's heating profile with a clean-burning, efficient wood fireplace you can depend on. This eco-friendly wood fireplace exceeds the strictest environmental standards. Come home to the comfort of the WarmMajic II and enjoy big heat and bold flames.

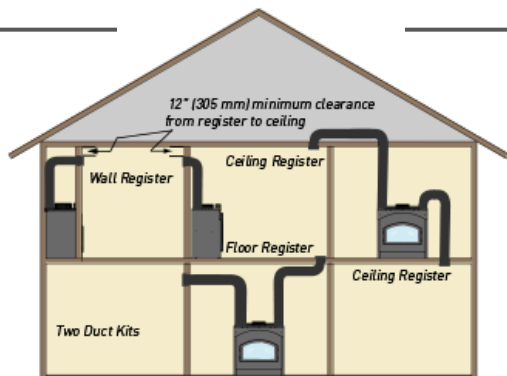

### WarmMajic II Quick Look

- 22" recommended log length and 2.7 cu. ft. interior capacity
- Modern technology makes starting your fire easier and enables up to 8 hours of burn time
- Eco-friendly EPA certified
- High performance dual fans with adjustable speed controls distribute a constant flow of heat
- 81,000 BTUs—heats 1,000 to 2,600 sq. ft. depending on climate and home efficiency
- High performance dual fans with adjustable speed controls distribute a constant flow of heat

WarmMajic II shown with standard cast-iron doors and firebrick interior.

SEE IT BURN

Optional: Heat-Zone duct runs

### Heat Management – Optional Heat-Zone Kit (Available on Pioneer III, Pioneer II and Warm Majic II)

With zone heating, you can easily reduce your energy consumption by up to 40%, and reduce your utility bill in the process. Using a Majestic fireplace as a supplemental heating source, you can turn down your central furnace or boiler system and still maintain comfortable temperatures in your common living area.

# Ashland

## Wood-Burning Fireplace

The Ashland delivers on every level. Customize the design with three available sizes and stylish finishing options. The large firebox gives you a front row seat for unforgettable fires, while the proven history of performance provides peace of mind for many years to come.\*
