

B Vent Fireplace Systems by Monessen

# WARM WELCOME

Easily incorporated into any design requirement where the fireplace can be vented straight up and out, adding the beauty and elegance of fire to your home is simple with a B vent fireplace system from Monessen.

## MONESSEN B VENT FIREPLACE SYSTEMS

The BBV fireplace system from Monessen offers a 36 inch radiant design with true 36 inch brick to brick viewing area. With up to 22,000 BTUs, optional bi-fold Black finish glass doors and a slim 14 inch deep design, the BBV fireplace is a perfect choice for just about anywhere.

The SBV series offers 36 and 42 inch sizes each with an equally expansive viewing area. Each size comes standard with refractory lined firebox for a true masonry brick look, and a Black fire screen. With up to 31,000 BTUs of warmth, the SBV fireplaces are ideal choices for hard to heat areas in your home.

### Key Features

- Glowing ceramic fiber logs featuring a patented Natural Flame aluminized pan burner with random dancing flames and large ember bed
- Signature Command® System electronic ignition with three step flame height control or electronic ignition in natural gas
- Hidden control panel allows facing material to be installed up to the opening of the unit
- Optional Black bi-fold doors\*

\* Doors must remain open during operation.

500BBV with optional firebrick liner.
