

7100 EPA WOOD FIREPLACE

QUADRA-FIRE[®]
NOTHING BURNS LIKE A QUAD

PERFORMANCE FROM THE BEGINNING

Founders Alan Trusler and Dan Henry spent countless nights in the lab, determined to harness the powerful force of fire in ground-breaking new ways. Over the years, Quadra-Fire® developed precision hearth designs. Stunningly strong and detailed, with powerful and efficient performance to match, the tradition lives on through this wood fireplace.

WHY QUADRA-FIRE

For more than 30 years, Quadra-Fire has put performance and easy operation above all else. Today these ideals are alive and vibrant, blending our past with our present.

WHY WOOD

IT'S RENEWABLE - Using renewable energy sources is more important than ever and wood is 100 percent renewable. When you burn wood, you are also completing the last step of the natural carbon cycle of trees, resulting in a zero net carbon impact on the environment.

IT'S COST-EFFECTIVE - Heating with wood costs less than heating with electricity, liquid propane or heating oil, especially if you harvest wood yourself.

As the fire ignites, it remains clear: **NOTHING BURNS LIKE A QUAD.**

EXCLUSIVE TECHNOLOGIES Innovative technology is at work in every Quadra-Fire. These advancements make it possible to burn wood more effectively, efficiently, and with more control.

FOUR-POINT BURN SYSTEM

The patented Quadra-Fire Four-Point Burn System produces intense rolling flames. Four combustion cycles extend the heat, enhance the fire and increase efficiency for long-lasting, proven performance.

AUTOMATIC COMBUSTION CONTROL

Automatic Combustion Control (ACC) is an advanced heat-management technology from Quadra-Fire. ACC feeds the fire with air when it's needed most—for precision start-up and consistent, extended burns.

7100 WOOD FIREPLACE

7100 SHOWN WITH MISSION HILL FRONT AND SATIN NICKEL DOOR

Peak BTU/hr Output ¹ 92,400	Heating Capacity ² 1,200-3,000 sq ft	Max. Burn Time ³ 16 hrs	Efficiency ⁴ 77.6%	Emissions ⁵ 3.1 g/hr	Firebox 3.4 cu ft	Recommended Log Length 24"	Blower System 280 cfm	Weight 670lb

DOOR

Doors come standard on the appliance; choose your color.

- » BLACK
- » SATIN NICKEL

FIRESCREEN

HEAT ZONE SYSTEM

The 7100 can supplement your home heating with two optional Heat Zone systems. These systems allow you to route heated air to other areas of the home.

SPECIFICATIONS

FRAMING DIMENSIONS AND CLEARANCES

ENCLOSED AREA:

- Appliance to back wall 1"
- Appliance to sidewall 1"
- Duct boots to framing 0"
- Top standoffs to header..... 0"

EXPOSED SURFACES:

- Faceplate to sidewall..... 16"
- Heat zone air grilles to ceiling 12"

MANTEL:

- Minimum mantel height (from base)....60"
- Maximum mantel depth..... 12"

MIN. FLOOR PROTECTION:

20" deep by 41" wide, centered in front of fireplace

Thank you from everyone at Quadra-Fire

¹ BTU: 1st hour output uses high burn efficiency number. BTU will vary depending on the type of fuel used and moisture content of the fuel. ² Heating capacity (in square feet) is a guideline only and may differ due to climate, building construction and condition, amount and quality of insulation, location of the heater, air movement in the room and type of wood used. ³ Actual burn times will vary based on how the appliance is operated, load size, moisture content and type. ⁴ Weighted average LHV (Low Heating Value) efficiency. ⁵ For full warranty details go to www.quadrafire.com.

IMPORTANT - READ BEFORE YOU INSTALL! - Refer to the Owner/Installation Manual for complete clearance requirements and specifications. The images and descriptions in this brochure are provided to assist you in product selection only. Fireplace, stove and insert surfaces get extremely HOT and can cause burns if touched. Keep a safe distance away. To learn more visit www.quadrafire.com/fireplacesafety. Quadra-Fire is a registered trademark of Hearth & Home Technologies. Product specifications and pricing subject to change without notice.
