The Heart of the Home:
Specifying Gas Fireplaces
for Today's Homes

The Heart of the Home: Specifying Gas Fireplaces for Today's Homes

A fireplace 101 course focusing on factory-built gas fireplaces, including terminology, fireplace types, specialty fireplace options, design considerations, venting parameters, selection criteria, and key specification issues.

Enriching Living Spaces
with Fireplaces: Three Steps
to Homebuyer Satisfaction

Enriching Living Spaces with Fireplaces: Three Steps to Homebuyer Satisfaction

Learn three essential steps to facilitate fireplace design and selection that will increase homebuyer satisfaction and a home's market value. This course also discusses current trends of indoor and outdoor fireplaces.

Gas Fireplaces:
Adding Ambiance to
Any Room

Gas Fireplaces: Adding Ambiance to Any Room

A fireplace style exists for any type of room you're designing. This course provides an overview of gas fireplaces and their application in specific room settings such as kitchen, bath, and outdoor spaces. Learn about versatility of unit placement as well as design and functional considerations critical to the selection process.

Specifying Fireplaces to
Meet National Green
Building Programs

Specifying Fireplaces to Meet National Green Building Programs

Discover how hearth products contribute to home comfort, energy efficiency, indoor air quality, and environmental sustainability. This course discusses how some hearth types lend themselves to green building programs and why others do not.
