CLEARANCES TO COMBUSTIBLES

**Combustible Object**

(R value of hearth must be equal to or greater than 2.32)

HEARTH EXTENSIONS

2" [51] minimum air space clearance from chimney

Framing must be extended straight up 84" [2134] from base of fireplace.

Extra space needed for outside air connection. If outside air duct has no bend, this dimension may be reduced as long as minimum clearances are met.

* If interior of chase will be drywalled, add the thickness to this measurement.

** Adjust header height for raised floor under fireplace.
