

Termination Caps

For Gas & Wood Hearth Systems

A finishing touch

to enhance your

curb appeal.

The Finishing Touch

Termination caps are a critical component to complete any hearth system. These durable caps are UL-listed—proven effective to protect venting components and ensure safe exhaust flow.

Decorative termination shrouds deliver enhanced style and safety for fireplaces, stoves and inserts. A variety of sizes and designs are available, providing a way to accent or disguise any venting system.

The finishing touch to distinguish your home

Don't overlook the finishing touch on a fireplace, stove or insert. Curb appeal is the #2 most important community feature homebuyers look for when choosing their new home¹.

Distinguish your home from the rest of the block. Termination caps and decorative shroud options are available for gas and wood products. Select a cap or shroud to define your style.
