DIRECT VENT GAS FIREPLACE

METRO
Take modern design to new places. The compact and efficient METRO fits where other fireplaces don’t. From uptown to downtown. And everywhere in-between.

METRO shown with modern front in fog gray
CREATIVE APPLICATIONS
A slender profile, single-sided or see-through models and flexible venting options accommodate creative installation applications. Think about different placements on the wall, or in a secondary or unique space.

PERSONALIZED DETAILS
Choose your own blend of finishing details for your own look. Fronts channel attention. Distinct interior options showcase the flame differently. A reflective porcelain firebox keeps it all shining bright.

### TECHNOLOGIES

#### INTELLIFIRE™ IGNITION SYSTEM

The IntellFire™ Ignition System (IPI) is an advanced intermittent pilot ignition system. IPI constantly monitors ignition, ensures safe functioning and conserves up to $10/month in energy costs.

#### DIRECT VENT TECHNOLOGY

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

#### HEAT ZONE TECHNOLOGY

Draw heat from the fireplace into another room of the home, up to 20 feet away. When a heat zone kit is run continuously, it will redirect up to 25% of the fireplace’s heat to another area, thus reducing wall temperatures above the fireplace. Two heat zones run continuously will redirect up to 50% of the fireplace’s heat.

#### CONTROLS

Turn modern art on fire. Operate the METRO with an added level of function and convenience with an optional wall switch or remote control.

### LIMITED LIFETIME WARRANTY

The strongest in the industry, Heat & Glo® provides a limited lifetime warranty on the most important aspects: firebox and heat exchanger.

1. For complete information on this model, please contact us at:
2. For full warranty details, go to www.heatnglo.com.
3. Firebox glass and other surfaces get extremely HOT and can cause severe burns if touched. Do not remove the protective safety screen from the front of the glass. Keep a safe distance away. To learn more visit www.heatnglo.com/fireplacesafety
