The flagship 6000/8000 series from Heat & Glo® is designed with your lifestyle in mind. Four models and two sizes provide flexibility to upgrade with enhanced features.

Start with the C model for moderate heat and vibrant flames. Move to the CL for upgraded LED accent lighting, choice of brick interior or reflective black glass and an IntelliFire™ Touch wireless remote control for simple and intuitive operation. Select the CLX for the ultimate fireside experience with bold, vibrant flames, high definition logs, LED-illuminated ember bed and virtually invisible anti-reflective ceramic glass. Or go Modern with a clean front, ebony glass media and a reflective fluted black glass interior.
YOUR FIRE. YOUR WAY.
6000CL shown with Iron Age front, Stratford brick interior panels and painted Battlefield mantel

6000CLX with Chateau Forge front and Stratford brick interior panels

8000CL shown with Halston front in black and fade-resistant reflective black glass interior panels

8000C shown with Arcadia front in black and Stratford brick interior panels

Features: on/off, flame height adjustment, fan speed, lights adjustment, thermostat mode, room temperature readout, child lock, timer mode, battery backup, cold climate mode, power vent, wall docking station (fan, lights and power vent are dependent on your fireplace).

INTELLIFIRE TOUCH RC150 WIRELESS WALL SWITCH
Features: on/off, battery strength indicator, battery backup, cold climate mode

SELECT A MANTEL SYSTEM
Complete your fireplace with distinctive style. A variety of mantel systems can transform your space. Select from a range of styles. Visit heatnglo.com for more options and additional information on mantel systems, shelves and stone surrounds.

6000 & 8000 TECHNOLOGIES
INTELLIFIRE TOUCH IGNITION SYSTEM
IntelliFire Touch is the most advanced and intuitive IntelliFire system, making operating your fireplace simple, smart and safe. Select the wireless wall switch or touchscreen remote control for the solution that fits your life.

DIRECT VENT TECHNOLOGY
Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality.

HEAT MANAGEMENT SOLUTIONS
Bring the warmth from your fireplace to the rest of your home, up to 20 feet away. Heat management technology can redirect up to 50% of the heat to another area, also reducing wall temperatures above the fireplace. Choose between a Heat-Zone™ kit to transfer heat where you want it, or utilizing your existing furnace ductwork with a Heat Duct kit.

LED ACCENT LIGHTING
Superior performance and extended efficiency. This technology provides high-contrast, brilliant lighting to accentuate the flames. Can be used as mood lighting, with or without the flames.

LED EMBER BED
Add an extra layer of dimension and light to your fire. Realistic illuminated LED embers let you enjoy the ambiance, with or without the fire.

FADE-RESISTANT BLACK GLASS AND FLUTED GLASS PANELS
A clean modern look never gets dull. Just like these black glass interiors. Their hot. And look that way, too. For the life of your fireplace.

HIGH DEFINITION LOGS
Logs are a key element of your fireside experience. All Heat & Glo logs are hand-painted. For the most authentic appearance and highest level of detail, opt for the CLX model with high definition logs.

ANTI-REFLECTIVE GLASS
A cleaner, more distinct view of the fire. A glare reduction of 89% over standard ceramic glass, making it virtually invisible. And an experience so real, friends may just try and add a log to the fire.

LIMITED LIFETIME WARRANTY

The strongest in the industry, Heat & Glo provides a limited lifetime warranty on the most important aspects: firebox and heat exchanger.

For full warranty details see heatnglo.com

Fireplace glass and other surfaces get extremely HOT and can cause severe burns if touched. Do not remove the protective safety screen from the front of the glass. Keep a safe distance away. To learn more visit www.heatnglo.com/fireplace safety
