The flagship 6000/8000 series from Heat & Glo® is designed with your lifestyle in mind. Four models and two sizes provide flexibility to upgrade with enhanced features.

Start with the C model for moderate heat and vibrant flames. Move to the CL for upgraded LED accent lighting, choice of brick interior or reflective black glass and an IntelliFire™ Touch wireless remote control for simple and intuitive operation. Select the CLX for the ultimate fireside experience with bold, vibrant flames, high definition logs, LED-illuminated ember bed and virtually invisible anti-reflective ceramic glass. Or go Modern with a clean front, ebony glass media and a reflective fluted black glass interior.

YOUR FIRE. YOUR WAY.
Choose a model to fit your space and style.

BRICK REFRACTORY & ACCENT LIGHTING

6000 & 8000
INTERIOR PANELS

Accent the firebox with glass. Four cool color options to warm up your flame.

MODERN INTERIOR OPTIONS

A clean modern look never gets dull. Just like these black glass interiors. Their new bronze or graphite. Available in hand-crafted, hammer steel. Iron Age models; optional on C models.

SELECT A MANTEL SYSTEM

Complete your fireplace with distinctive style. A variety of mantel systems can transform your space. Select from a range of styles. Your choices can be as simple or ambitious as your imagination. Mantel systems, shelves and stone surrounds.

6000 & 8000 TECHNOLOGIES

LED ACCENT LIGHTING
Superior performance and enhanced efficiency. This technology provides high-contrast, brilliant lighting to accentuate the flames. Can be used as fixed lighting, wall or with the flames.

LED EMBER RED
Ideal for a touch of vibrancy and light to your fire. Redact illuminated LED ember kit for the ambiance, with or without the fire.

FADE-RESISTANT BLACK GLASS AND FLUTED GLASS PANELS

A clean modern look never gets dull. Just like these black glass interiors. Their new bronze or graphite. Available in hand-crafted, hammer steel. Iron Age models; optional on C models.

HEAT MANAGEMENT SOLUTIONS

Direct Vent fireplaces capture 100% of combustion exhaust and odors outside of the home. Those sealed fireplaces provide optimal heat, conserve energy and reduce indoor air pollution.

HEAT OUT™

Draw heat from your fireplace and direct it outside, up to 25 feet away. When an Heat Out™ kit is run continuously on high, it can redirect up to 40% of the heat off the fireplace, also reducing wall temperatures above the fireplace.

POWER VENT TECHNOLOGY

For years past, there has been a search for a way to bring the warmth from your fireplace to the rest of your home, up to 20 feet away. Heat management technology can redirect up to 50% of the heat off the fireplace, also reducing wall temperatures above the fireplace.

DIRECT VENT TECHNOLOGY

Bring the warmth from your fireplace to the rest of your home, up to 20 feet away. Heat management technology can redirect up to 50% of the heat off the fireplace, also reducing wall temperatures above the fireplace. Choose accessories, like battery backup, cold climate mode, power vent, wall docking station (fan, lights adjustment, thermostat mode, room temperature readout, child lock, timer mode, mood lighting, with or without the flames.

WIRELESS WALL SWITCH

Simple, smart and safe. Select the wireless touch switch or touchscreen remote control for the solution that fits your life.

INTELLIFIRE TOUCH RC400

IntelliFire Touch is the most advanced and intuitive IntelliFire system, making operating your fireplace simple, smart and safe. Select the wireless touch switch or touchscreen remote control for the solution that fits your life.

INTELLIFIRE TOUCH RC150

IntelliFire Touch is the most advanced and intuitive IntelliFire system, making operating your fireplace simple, smart and safe. Select the wireless touch switch or touchscreen remote control for the solution that fits your life.

INTELLIFIRE TOUCH RC500 WIRELESS WALL SWITCH

IntelliFire Touch is the most advanced and intuitive IntelliFire system, making operating your fireplace simple, smart and safe. Select the wireless touch switch or touchscreen remote control for the solution that fits your life.

Dimensions are in inches and millimeters. Product information is not complete and is subject to change without notice. Product installation must adhere strictly to instructions shipped with product. We recommend measuring individual units at installation. Assumes the use of 1/2” sheetrock. NOTE: Combustible material should not cover the face. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo® reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Actual product appearance, including flame, may differ from product images.
