Rave Series

Direct Vent Gas Fireplace

modern linear style, proven value

The Rave adds a modern linear style and proven value to any home or office. Contemporary design elements are highlighted by a long, mesmerizing ribbon of flame rising through attractive modern media. Explore unique placements and create a custom look with a choice of finishing options. With unsurpassed dependability and exceptional value, the Rave gas fireplace series is another way Heatilator has been keeping America warm since 1927.

Features

- 32", 36" or 42" wide viewing area
- Moderate heat output—up to 25,250 BTUs
- Multiple interior finishing options
- Convex or flat front options
- Enhanced safety with the IntelliFire Touch® ignition system
- Select from the IntelliFire® app, touchscreen remote or wireless wall switch for the solution that fits your life
- Optional heat management solution kits are available that redirect heat to another area of the home, including Passive Heat™ and Heat-Zone™

Options

Fronts

Clean face trim available in black or new bronze (new bronze available for 42" only)

Illusion available in black only

Illusion top view

Fan

Moves heat into the room for added comfort

Interiors

LED accent lighting

Fade-resistant reflective black glass interior panels

Multicolored ceramic fiber stones

Crystal glass

Black glass

Controls

IntelliFire App

All the features of a remote control with an app installed on your smart device. Monitor your fire from anywhere or even control it with the sound of your voice. IntelliFire is compatible with voice assistants Amazon Alexa and Google Assistant.

Touchscreen Remote

Features: on/off, flame height adjustment, fan speed, lights adjustment, thermostat mode, room temperature readout, child lock, timer mode, battery backup, cold climate mode, power vent, wall docking station (fan, lights and power vent are dependent on your fireplace).

Wireless Wall Switch

Features: on/off, battery strength indicator, cold climate mode

LED Accent Lighting Wall Switch

LED accent lighting is set to desired color when installed. An optional LED light switch allows user to change the color at any time.

Technology

IntelliFire Touch Ignition System

IntelliFire Touch is our most advanced intermittent-pilot ignition (IPI) system, making operating your appliance simple, smart and safe. Select from the IntelliFire app, touchscreen remote or wireless wall switch for the solution that fits your life.

Direct Vent Technology

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality. To learn more, visit heatilator.com.

Heat Management Solutions

Bring the warmth from your fireplace to the rest of your home, up to 20 feet away. Heat management solutions can redirect up to 50% of the heat to another area, and reduce wall temperatures above the fireplace. Choose between:

- **Passive Heat™ kit** to allow heat to naturally rise and disperse at ceiling height without the use of a fan
- **Heat-Zone® kit** to transfer heat where you want it
- **Heat-Out® kit** to redirect heat from the fireplace outside the home

Cover: Rave 42 using Passive Heat kit/side register, shown with black clean face front, fade-resistant reflective black glass interior panels, ceramic fiber stones and LED accent lighting

Left: Rave 36 using Passive Heat kit/front register, shown with clean face front in black, fade-resistant reflective black glass interior panels, black glass media, ceramic fiber stones and LED accent lighting
