Crave Series

Direct Vent Gas Fireplaces
Crave 72

modern luxury
in 36, 48, 60
and 72 inches

The Crave provides modern luxury at an affordable price. Multiple upgrade options let you accent your style and personalize your look. It’s an easy choice. Modern luxury, backed by the #1 preferred brand by builders.
**Features**

- Clean face trim provides beautiful flush-to-the-wall finish
- Luxurious crystal glass
- Enhanced safety with the IntelliFire Touch® ignition system
- Full featured RC400 remote control

- Industry leading end-to-end flame technology
- Define your design with four sizes—in single sided or see-through configurations—and multiple customization options
- Up to 58,000 BTUs
- Available in 36, 48, 60 and 72" models
- Optional Passive Heat enables a TV or heat sensitive materials to be placed just 12" above fireplace opening without a mantel

**Options**

**Fronts**

- Four Square*
- Illusion*
- Clean Face

**Finishes**

- Black
- Bronze

**Interiors**

- Crystal Glass
- Ebony Glass
- Cobalt Glass
- Amber Glass
- Red Glass
- Natural Log Set (Requires glass media)

**Cover:** Crave7260 shown with Clean Face front in black, lighting, amber glass media and reflective black glass liner.

**Left:** Crave8472 See-through shown with Clean Face front in black, cobalt glass media

* Four Square and Illusion fronts not available for Crave 72".
Crave 60
Options, continued

**Lighting**

- With Lighting
- Without Lighting

**Reflective Liner**

- A fade-resistant black glass liner multiplies the flames and adds intensity to the fire

---

**Technology**

**IntelliFire Touch Ignition System**

IntelliFire Touch is the most advanced and intuitive IntelliFire system, making operating your fireplace simple, smart and safe. The RC400 touchscreen remote control comes standard. Also available is the RC150 wireless wall switch for the solution that fits your life.

**Direct Vent Technology**

Direct Vent fireplaces remove 100% of combustion exhaust and odors outside of the home. These sealed fireplaces provide optimal heat, conserve energy and ensure clean, safe indoor air quality. To learn more, visit heatilator.com.

**Heat Management Solutions**

Bring the warmth from your fireplace to the rest of your home, up to 20 feet away. Heat management solutions can redirect up to 50% of the heat to another area, and reduce wall temperatures above the fireplace. Choose between:

- **Heat-Zone® kit** to transfer heat where you want it
- **Heat-Out® kit** to redirect heat from the fireplace outside the home
- **Passive Heat kit** allows heat to naturally rise and disperse at ceiling height without the use of a fan.

Choose side, front or open wall register, enabling a TV or heat sensitive materials to be placed just 12” above fireplace opening without a mantel.

Exceptional Value + Dependability

Why do contractors, architects and homebuyers trust Heatilator? Because we mix value with dependability. Established in 1927, Heatilator has built a long-standing reputation for providing quality, dependable hearth products at unbeatable values. Today, Heatilator remains the most preferred, recommended and installed fireplace brand among building professionals.

Efficiency Ratings

Steady State - Since most homeowners use their fireplaces for an extended time while they are in the room, Steady State measures how efficiently your fireplace converts fuel to heat once it is warmed up and running in a “steady state.”

AFUE - AFUE rating is more typically used with appliances, like your furnace, that continually cycle on and off to maintain a constant temperature. EnerGuide (CSA P.4.1-15) - Used in Canada and some U.S. states to measure annual fireplace efficiency.

Limited Lifetime Warranty

The strongest in the industry, Heatilator provides a limited lifetime warranty on gas-burning products of the most important aspects: firebox and heat exchanger.

1 For full warranty details go to heatilator.com.

The information provided in this literature is for planning purposes only and subject to change. Please consult the installation manual for actual installation. Actual product appearance may differ from product images. Fireplace glass and other surfaces get extremely HOT and can cause severe burns if touched. Do not remove the protective safety screen from the front of the glass. Keep a safe distance away. To learn more visit www.heatilator.com/fireplacesafety.
