**PB105** PELLET BOILER

## Efficient, Eco-Friendly Heating

Powerful heat production, automatic ignition and temperature control, and a small footprint make the PB105 an ideal choice for central heating. A 3-pass heat exchanger design increases efficiency and an extra large hopper provides extended performance with minimal maintenance. Eco-friendly fuel options help Mother Nature and save you money, too.

For even heating, easy maintenance and uncompromising quality, turn to the PB105.

This cut away shows air flow and the Patented Pellet Pro Feeder System at work in the PB105.
