ADVANCED ENERGY

QUADRA-FIRE®

NOTHING BURNS LIKE A QUAD

Stoves • Inserts • Fireplaces

Quietest

DC motors mean less noise than any other pellet appliances.

Powerful heat

Advanced Energy appliances provide more heat than any other cast iron pellet appliance.

Huge Capacity

80 lb. hopper holds 2 bags of pellets for less frequent filling.

Fuel Flexible

You choose the fuel, taking the risk out of volatile fuel prices.

Easiest

The 7-day programmable wall control features a user-friendly menu.

No Power, No Problem

The only pellet appliances with battery back up capabilities for power outages.

ADVANCED ENERGY: A LOOK INSIDE

Exclusive air foil heat exchanger ensures quiet efficiency and heat output

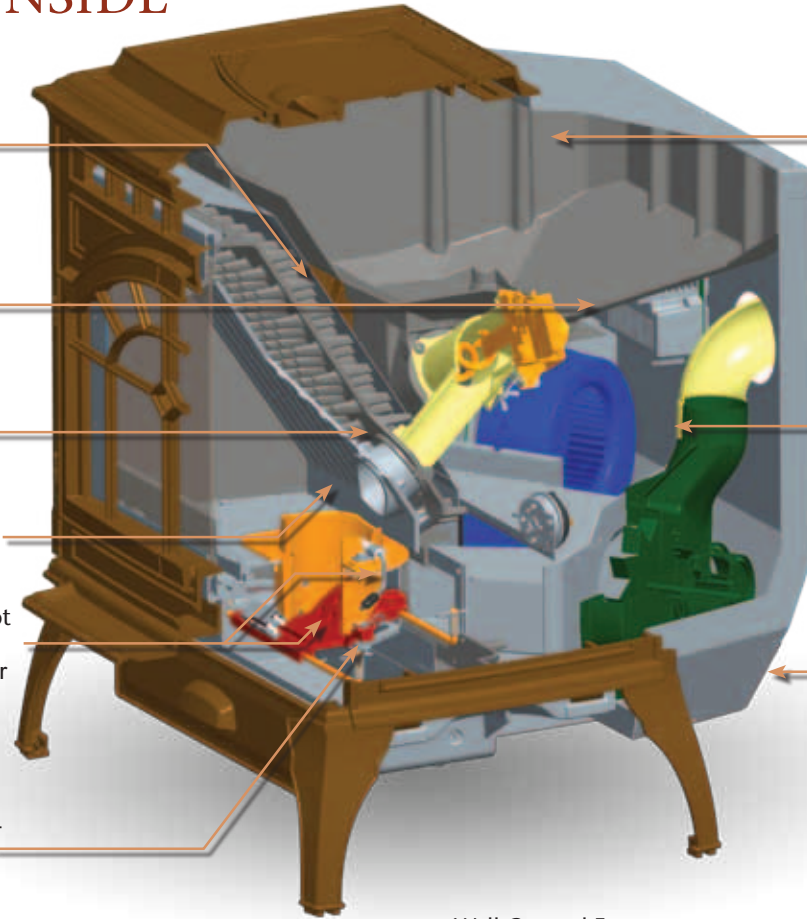

Patented computer-controlled feed system offers fuel flexibility

Removable baffle provides easy maintenance

Solid cast iron firebox built for durability

Durable cast iron firepot provides quick ignition with self-igniting lighter

Patented auto-clean system provides hands-free firepot cleaning for continuous, reliable operation

Large, 80-lb hopper holds 2 bags of pellets

Quiet blower motors designed with brushless DC, variable speed, and computer controls for maximum efficiency

Convenient 12-volt battery backup connection guarantees heat during power outages

Wall Control Features:

- User-friendly design
- 7-day programmable thermostat
- Multiple fuel selections
- Automatic control with 5 heat output levels
