### Cleaning Instructions for Decorative Fronts

Use a microfiber cloth and Windex® Original Glass Cleaner or 03M003 Stove Bright® Glass Cleaner to clean the door immediately after installation to remove acids deposited by the installer or technician. Spray the cleaner onto the microfiber cloth and carefully wipe the entire surface. The door should be cleaned in this manner annually by the homeowner to remove fingerprints or other contaminants. Once oxidation of the paint pigment has occurred, cleaning will not restore the original color.

### INSTALLATION

1. Remove decorative front and four mounting screws from packaging.
2. Insert the four mounting bolts through the holes in the decorative front.
3. Align the mounting bolts with the four holes on the appliance as shown in Figure 1. Insert the mounting bolts into the holes to install the decorative front on appliance. Tighten the mounting bolts.
