

# GLASS MEDIA

**Models: COSMO-32/42-IFT, COSMO-32/36/42-IFT-B, RAVE4013/3012-IFT, RAVE42/32-IFT-B, JADE32/42I, JADE32/42I-B, SLR-X-AU, SLR-X-AU-L, B41L-AU**

**- Installation Instructions -**

**WARNING! Choking Hazard!** Keep glass media out of reach of children.

**CAUTION! Risk of Cuts, Abrasions or Flying Debris.** Wear protective gloves and safety glasses during installation. Sheet metal edges are sharp.

**NOTE:** Glass media size and shape shown in images may differ based on media color option chosen.

## Cleaning the Glass Media

During shipment of the glass media, dust and debris can accumulate. We recommend the glass media be rinsed thoroughly with water to remove dust and small glass particles.

- Place the glass media into a bucket and rinse thoroughly with water.
- Allow the glass media to dry before installing it into the fireplace.

**NOTICE: THE SLR-X-AU-L** appliance requires a burner change to be able to be used with this kit. Burner SRV2491-007 is available through your dealer. Follow the instructions included with the burner prior to installing this kit.

**NOTICE:** When installing glass media into B41L-AU, burner must be replaced with part number 2617-007. Glass media is not approved for use with burner that is shipped with the B41L-AU. See installation manual for burner replacement instructions.

## INSTALLATION

**WARNING! Risk of Explosion!** Follow glass media placement instructions.

- **DO NOT** place glass media on burner surface or over rear gap behind burner.
- **DO NOT** place glass media in a position that it could fall into area in front of pilot.
- Use **ONLY** glass media that is approved by Hearth and Home Technologies.

Fireplace will not function properly. Delayed ignition could occur.

1. Place an even layer of glass media around the basepan. Do not place glass media in the slot behind the burner or on the top surface of the burner. See Figure 1. This may cause lighting issues, undesirable burner flame, or delayed ignition.
2. Place glass media on the pilot shield. Do not allow any media to overhang the front lip of the pilot shield. An undesirable flame may be created. See Figure 2.

**NOTE:** The 32 inch models may not require the use of all glass media provided. Store extra glass media with these instructions for future use.
