Log Set Assembly: LOGS-SL750TRS-D
Model: SL-750TRS-IPI-D

LOG PLACEMENT
INSTRUCTIONS

STEP 1.
CAUTION: Logs are fragile!
Carefully remove the logs from the packaging.

STEP 2.
LOG #1 (SRV2065-701) Place log #1 on left flat side of
the burner assembly. Pull the log forward and slide it to
the right until the notches under the log are in the burner
grooves.

STEP 3.
LOG #2 (SRV2066-702) Place log #2 on the grate bar
and push it back against refractory. The pilot should be
centered within the large notch on log #2.
STEP 4.
LOG #3 (SRV2066-703) Place log #3 on right side of grate. The notch on the log should fit over the bar on the far right side of the grate. Push the right side of log #3 against the grate tab and pull the left side forward until it comes into contact with the burner detail as shown in Figure 1.

STEP 5.
LOG #4 (SRV2066-704) Place log #4 so that the notch is touching the first grate tine and is laying in the flat spot of log #2. The right end of log #4 should touch the back refractory panel. See Figure 2.

STEP 6.
LOG #5 (SRV2066-705) Place log #5 on log #2. The front left of the log will rest on log #4. Log #5 must be pushed back against refractory. See Figure 3.
