

Log Placement Instructions

Models: PH18-R

▲WARNING!

The positioning of the logs is critical to the safe, clean operation of this gas log set. Sooting and other problems may result if the logs are not properly positioned per these instructions. Failure to position in accordance with the diagrams below, or failure to use only parts specifically approved for this log set may result in property damage or personal injury.

Ref.	Description	Qty.	PH18-R
1.	Rear Log #1	1	20303849
2.	Left Middle Log #2	1	20303850
3.	Right Middle Log #3	1	20303851
4.	Front Log #4	1	20303852
5.	Left Top Log #5	1	20303853
6.	Right Top Log #6	1	20303854

PLACE PH18-R LOGS

1. Place Rear Log (#1) on rear support. See Figure 1.
2. Place Left Middle Log (#2) on middle support and burner. See Figure 2.
3. Place Right Middle Log (#3) on middle support. See Figure 2.

NOTE: Logs #1, #2 and #3 have ridges on the bottom which secure the logs to burner frame. After installing each log, check to be sure it is stable.

Figure 2

CAUTION

DO NOT sprinkle volcanic rock on the logs or around the pilot or the main burner. This may cause sooting. Only place volcanic rock on the floor of the fireplace.

During initial operation of the new heater, burning logs will give off a paper burning smell and orange flames will be present. Simply open the windows for a few hours to vent the odor.

4. Place Front Log (#4) in between burner and grate so that notched areas fit between grate supports. See Figure 3.

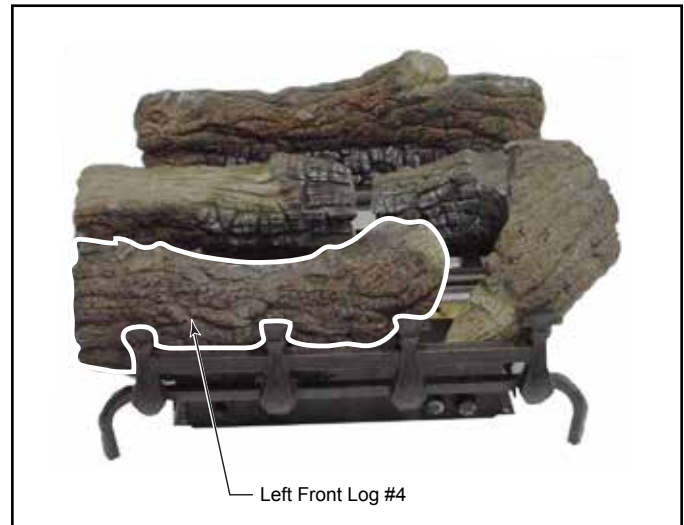

Figure 3

5. Rest Left Top Log (#5) on front and rear log cutouts.
See Figure 4.
6. Rest Right Top Log (#6) on front and rear log cutouts.
See Figure 4.
